

PREPARING YOUNG PEOPLE FOR THE DEFENSE OF THE MOTHERLAND

<https://doi.org/10.5281/zenodo.12680865>

Turgunbayev Toxirjon Abdugafurovich

*Far.du. Associate professor of the faculty of military education reserve lieutenant
colonel*

Prepare young people to protect the motherland – performed during the whole life of man is a process. Patriotism education from the family and from the educational institution should be continued in primary school.

Small age I-iv class of students the process of formation of readiness to protect the motherland vivid, they are available in limited life experience, the feature of the knowledge obtained and the size, taking into account the general objectives of education is built. During this period his samardorligi avvalam are educational, with comprehensive functions are closely related. For example, to the soldiers respect and love of this young army soldiers courage, are formed on the basis of knowledge about the armed forces of the republic of Uzbekistan.

Students of different ages small troops, military equipment, weapons of interest to the type of shooting. Thus, caregivers modern combat action to achieve victory in the army, showing the interaction between the types of students should give you related. Readers of this work is the implementation in aircraft, helicopter, ship, and the ship under water, soldiers, guns of the picture described is a very big help.

Feature games that have the activity of a small school at the age of patriotism is of great importance. without possessing the children the rules of the game, starshina, razvedkachi, telecommunication operators, loves to fulfill the role of signal companies. As such, organized and self arising from, the game is of great importance. Teachers not only is it in the game, but noted the importance of discipline in daily life warrior in the case of future obligations to fulfill the order and you should be too concerned about discipline.

Teenagers school latest features of governors of the psychological development of military patriotism creates good opportunities for education. They, in fact, the phenomena of current conditions analysis and synthesis, environmental, ethical requirements and the need to look at distributed work out an independent evaluation of your country many times will arise.

A number of teenagers is ready to protect the motherland in the formation of objective and subjective reasons depends on. Objective readers the most value in

terms of the process into account the educational institution and education of patriotism, who make up the military out of it is involved in different types of activities.

Potential of the formation of the native person present social condition in the expression of a personal relationship to the event, fliklash with new concepts which will help you to have the ability to begin to learn the essence of the purpose of the various sciences.

The most useful subjects for this age - humanitarian, natural, mathematical sciences, physical education. Students in this period the "military" and realizes the meaning of the concept more deeply. "Protecting the homeland", "Military regulations" and others of its power and the economic power of the armed forces of our state of life begin to understand that solid guarantee the peaceful and quiet.

The aspiration of emotion in adolescents to heroic patriotism, courage tend to show, instead of being able to own in a community of peers respect them, to be worth it, high attention to himself and stricter, large as a social activity develops according to the formation of new emotions.

Exactly at the same age school pupils especially courage, the strength, the will, the courage, friendship and loyalty to fellow he appreciates. This is a sacred duty of the motherland-protection on them, which means features allows you to reach significance.

Fulfilling the minds of military patriotism or social lessons not only in mission but also in the effects of the real social situation occurs.

Great age (x-xi grade) readers of the scientific outlook, intellectual and physical development partnership, the process of finding their place in her chosen profession, the formation of period. Thinking more yetuklashadi readers of this age, deep summarize the order and the will be able.

Prepare to defend the motherland, as well as self-awareness, self-nurturing, too happens. You will have a complete idea about the defenders of their motherland. This is not only a hero or a veteran of the second world war, which baynalminimal, but independent uzbekistan, which is typical of the best characteristics of the defenders of the poet we are all about and their achievements that impress high and reliable protection of the labor of our people leaves a trail of deep concepts like imagination. However, it should be taken into account, these samples only works with high readers and find the place in action into account, will be awarded. Therefore, the teaching and the students in the educational process not only the events of the last war, the front of the people and work behind and in front the courage to give knowledge about the mass, but also prepare them should be protecting the homeland in the formation of a social outlook.

Many teenage boys would wear that dress when I graduated knowingly

military educational institutions during this period warrior in them the love and nurturing respect for the military to reveal the true beauty of labor is important.

Young patriots are armed with the knowledge of providing the basis of protecting the homeland system, stamina because it is necessary to the protection of the motherland and the education process is one of the important functions of the form as brave defenders. Students not only the knowledge of the military, but the army than the first military construction, war and peace in relationship to the criteria to become familiar with the problems of bev. The various sciences (history, literature, mathematics, physics, chemistry, biology, geography, physical-geographical and b.) summary come from, and the foundation will yield them the necessary knowledge and skills about the concepts himochisiga the motherland.

Those who consider mentions, military patriotic education in educational institutions according to the purpose of the analysis of the implementation of educational opportunities for:

History. The study of the history of science in the process of social development, educational qonuniyat understanding of primary and dunyoqarishi occurs, students in conditions of social development, economic development to'zumning, features and knowledge associated with the development of the initial battle and this activity takes about military service.

Military history of science program at the readers risk-risks is the fact that it is armed with the knowledge about our first period.

"The sphere of uzbekistan islam karimov turbulent friends in the world surrounding us and its effect on those who are going to attract. Thus, they are all popular, can be applied to military style in this series, we therefore mobility, have been studied and Well equipped, the border, we do to ensure the protection of our independence , we must have an army" it was pointed out that the first president of the republic of uzbekistan. In a history lesson to keep peace in the whole world, established friendly relations with all countries, the essence of the foreign policy of our state , and the features that reveal the place of the first president of the republic of uzbekistan according to the goal of the big shows.

Analysis of students ' historical materials and to summarize we learn to determine the significance and importance of special events and facts, circumstances and current social comparison and evaluation of theoretical knowledge should implementation.

The historical process related to the educational hissiyotini wake up in a great place to feel a responsibility to events that are happening around disclosure. In the past great men not only in the education process in order to do this, but the simple life of the working people of our country and its defenders and to reveal the activity zurur. Readers teach students that it should be put into such a situation:

they have compared historical events with their participation hayolan if, in the same way himself, ready to protect the motherland that price.

Amir temur particular the formation of the sense of patriotism in the youth has opportunities expensive. Amir temur Temur restoration of justice in the country, and has given great attention to establish a discipline jonbozlik own particular showing. Supports reliable measures. The state of amir temur justice and other judges in business management is superior. One noble dignity of all human qualities in a mate having its tole without high star shine, lighting the way in the fight against the opponent, is inspirational.

Amir temur of the lord of the exaggerated behavior is one of asia political standing up, despite the fact that half of following the speeches, would start with a very simple phrase: "the lord, a slave-Temur say I'm..". See, Amir Temur, function is not only because of dovrug, but make it worth admiration, to the extent that the patriots, with both separated from the other fair, the judge stood .

About amir temur, such as the ability of personal alisher navoi wrote: "... I amir temur ko'rogon agarchi compliment qilmaydurlar nazm, nazm and nasr, which is the position and uqubdurlarkim andoq xo'p however, there are a thousand good to live by byte byte aytqonicha o'qurg'oni determine lekarzem. Xaysiyatidankim holy, blessed lord, in the name of specialization, with ul and ul latoyifdan qililur bo'lg'ay this short one".

In this sentence one's courage, courage, justice, patriots, elsevar and business, ixlosmandi this in conjunction with sharia, adolatparvar, without having to mulohazali the quality of man is expressed. In this day and age the best indication of the formation of patriotism in the sense that they show up as will.

Amir temur professional and the enlightenment, the motherland, the people of the country prosperous, well-being of the citizens that can exert take care to provide them with curry doing awfully assume he took on a professional sign. Tuzuki in one's own: "...every, sul-tonlarning of guidance, stand-living, make-deeds, I kept my memory of what I said and of good conduct, take samples of acceptable quality, I wanted to follow him", writes that [...]. Also, our glorious forefathers of the "biography" of a sense of patriotism of the young ida twelve qualities are also important in the formation of quotes today is:

1.Let gratuitous. 2.Mutual respect. 3.Let adolatparvar. 4.Common interests and respect. 5.Religion generation. 6.Frankness. 7.To promise faithfulness. 8.Envy and covetousness is opposed to. 9.Spiritual and physical purity. 10.Faith. 11.Science science year sponsors.

The people of Amur Temur and at stake is the freedom of the motherland stand that acts as a betrayal not to call. Finally, at the level of the strong hamiyat are.

"You know our power of us if you want the building who built our feed", that was amir temur. The idea of making the country prosperous with this, he promoted it. The prosperity of every nation to know that the patriots of this country feel that it is enough to place it. Because of their own country, only the people who love her the address of the dwelling to thrive intensely moving. His other xarob, the rebirth does not allow to make.

Step into a new age of mankind today, who also amir temur spirituality and enthusiasm, let adolatparvar, sign yurtsevarlik high sample policy will remain.

Timur also demonstrated potential in the international arena incomparable own bright who is a great person. Different nations, different races of people and religions, combining powerful state to establish a centralized achieved. Yurtdoshlari harmony and development, creativity started towards the glorious ancestor of the efforts in this regard also for the actions of the youth of today is a sign. Trade and economic relations between nations through put forward the idea of building a single space.

Readers learn of protecting the homeland literature thousand years if you have thoughts about the traditions of its ancestors to be proud of our historical heroes who fought for independence hissiyotini going vaccines is called to protect the independence of the enemy, the hatred of hissiyotini uyg'alishiga up. Literature the course of amir temur, Mirzo Ulugbek, Muhammad Babur Health, imam al Bukhari, Bohovuddin Nakshband, Hoji Ahmad Yassaviy the people of uzbekistan and other great and famous ancestors of the life and creative heritage of courage will be able to learn.

The ground which led to the independence of their nation great Turon qahramonona the occurrence readers of literary works dedicated to the struggle of the battle, the hero of our ancestors to the motherland showing courage in the field of incredibly huge, invaluable spiritual, cultural heritage and understanding of the essence of values will help.

Haqiqatguy to the age of the teacher of literature, the development of the qualities of the fight against evil and violence, to help qahramonona with the approach of a past event, literary heroes to put himself instead of I am the life, life experience and filling gaps, the direction of the business life, guidelines and evidence, and important spiritual thrive tajovo'zkorlikdan ready to protect the country-should constitute a form of spiritual consciousness.

Go out and battle a mathematics teacher, modern means of combat skill to the position of the necessity of mathematical knowledge and especially to impress the importance for the future of native. Military activities started studying mathematics is essential to combat responsibility, internal discipline , and helps the formation of organizational interaction.

Military technique of the physical basis of physics students in the learning process (balistika, lokasiya, optics, shooting, weapons, mechanics) promotes the development of. The military technical device it or not this (rocket, flying from the direction of the plane) the effectiveness of accounting, analysis, evaluation requires that the military will be able to solve technical problems qabiliyatiga meaningful, to military action placed near will learn to apply theoretical knowledge in a professional situation.

Lesson Ximiya teenagers and girls on the basis of protection from chemical weapons, will get acquainted with the achievements of science in this direction, and people, food products, drinking water, housing and other skills in order to protect the things they receive from toxic chemicals.

Biological sciences, the study of the properties of medicinal plants of the flora of uzbekistan, a number of students in them, the sick and the wounded in the rescue of folk medicine use in recognize.

Geography the territory of the motherland readers and biy nature line in the country is armed with the knowledge about the nature of the ongoing regeneration. Students in the natural environment original condition changes does not come (one of them is the military action) to bring the occurrence of factors, become familiar with the tools.

Physical - geographical sciences nuclear, chemical and bacteriological weapons, the introduction of causing the death of all living creatures, the landscape can alter. The size of physical geography to students of a particular territory and gives ma'mumotlar about the natural conditions. Come out from the available information, protect students , and they can conclude about the features niqoblovchi.

Physical - geographical sciences educational eye chamalab accuracy, to see qabi qualities will help you develop memory. Identify places students in the education process, find the recipe, azimuth scan and determine masafani that are targeting the threads add the object to him and learn to read maps.

Today, special education muassalarida "young people in initial training until chaqiriqqqa" educational science is a big issue, it "until initial" through science students of the armed forces of the republic of uzbekistan, structure, purpose and function, and tactical, the arrow to open the training ranks, military and civil protection to have knowledge on threads.

The military of the future defenders of the motherland, the place of the armed forces of the republic of uzbekistan, so they can understand the requirements of the regulations, part military forces and military equipment, become familiar with the location and content of personal life; possesses the necessary practical skills within the framework of the preparation of young soldiers.

Teens military service to the youth of spiritual, moral, social and political tasks in the field of education in solving basically, the independence of our nation, the struggle for national freedom, heroism chronicle of the nation and its armed forces acquainted with the traditions stipulate that has the fame of combat and labor.

Experience shows that such achievements, the development of our educational stories about the past qahramonona patriotism emotions, their thoughts, done and to move the active affects. Every one “until initial preparations” teacher perception of young people who is going to bring new solutions to the world source vatanparvarlikning so you need to create a lesson in the environment.

Strictly training and organization, order and discipline is to teach the readers clearly, performer and develops the organizational side. Service to young people in the system of physical education plays an important role in training of the armed forces. This is understandable, combat life after all the difficulties of the transition, physically well developed, stamina, should be tried in various conditions is of people who have strong nerves.

At the same time the armed forces of the republic of uzbekistan for healthy, physically need chiniqqan guy, conscious, spiritual and political in the sense that fighters should be solid.

Physical education has a great impact on the course of military education vatanparvarlik in their place. Enough of the spiritual development of youth in physical education, which helps the formation of high moral qualities. Practical physical to overcome the difficulties of guys in the process of hardening-resistant, hardy and learn to be persistent. Dealing with sports, the guy at masculinity, courage, determination, persistence, develop confidence in their own strength – qualities of a skillful defender is very necessary for this land. Qualities which are necessary for the future of the educational process plays a large role in the formation of the native.

All of a certain historical approach to the principles of the current situation of the development of events at the time and is intended to consider as a variable phenomenon. There are a certain historical situation of education in patriotism of the military avvalom these principles forms and methods of the content refers to. military history of the people and armed forces education, patriotism heroes of the readers, trained in the great traditions are closely related. Accordingly mastering objective truth that does not let bo'zib of historical events is of great importance.

The construction of an independent state practice and international situation, the state of the activity related to foreign political principles.

The principles of this society to be updated, our employees, our struggle, our issues are solved in each historical stage of people would be subject to the destination. Explain the functions on a permanent basis, therefore the improvement

young people of our society, economy, culture, the achievements of prosperity of the people, holding meetings and show the flaws of our society on all aspects of a large building, to consider ways of life is very important.

The principles of education of patriotism. These principles, our multinational state, the armed military men, their maturity committed to strengthen the spirit of the spiritual is of great importance.

“Until initial ” teacher, warrior form of patriotism in all instructional activities shaxsiyotini the task, why that is a strong factor which reminds protect regular arms. The second world war, Afghanistan war, peace tajikistan help show our people that is related to the fraternal be a clear example to follow these guidelines can be.

Yondan different to different groups of young people to the state.

Many of the languages of our people of this state, various nations and peoples to build requires taking the specific features of the work of the interests of military patriotism. Here, therefore, of different age groups, national, age, social and technical professional features of the educational and cultural level, the study of mood and requirements is very important. Thus, the military patriotism of the work of the incarnate one of the essential conditions of success. The contradiction in the idea that some young people, security conclusions quickly, their tendency to send the price of power, self-conceit, it is necessary to consider the conduct specific to the warrior unstated.

Modern young people from the previous generation freedom of the motherland , and you can't let go did take into account that differ from those fighting for independence. In the image of our youth with disadvantages strictly spiritual and educational work it is necessary to carry serdiqqat. “We do not put anyone to giving our young we, we we are training them ourselves. Because of our independent homeland, will work for the future of our people”, was noted that the first president of the republic of uzbekistan.

Fighting traditions of our ancestors, one great amir temur combat heritage, political and social achievements of Uzbek fighters from the combat, the military place and duty military profession lectures on “ up initial” teacher to do this part himself ofiserlari have read or military, reserves and reserve ofiserlar, as well as teachers and parents, for former military personnel can be offered.

In addition to the effective conduct of work a month on course once you take into account as well as dates for the army in military training and military events dedicated to the life of the country you will need to show patriotism kinofilm great provision. Thus, the goal of each film entry starting with the word, in accordance with the idea that the students and zn understand will help you to take brighter in the image. The input word to the teachers before the start of the film and it is

desirable to attract readers.

Military organization military educational institutions on the basis of the work of the study group work the aim to attract readers to learn the basics of sheep. The direction of the circles when selected, the base material and the interests of professionals and students from the requirements and you need to come out.

Practical military to military service on young people in preparation for sports competitions play an important role. Them "up initial " the teacher and a physical education teacher consists of the following types of them include: shooting, throw the lemons on the organization of transportations kros, from the fence for the transition from a water block, pass accuracy o'zoq and lemons, throw a heavy stone lifting, etc. This and a variety of other competitions can be used in combination.

"Until initial " science in transition, usually in may, the head of the educational institution o'tkziadi military sports holiday. Months before a holiday plan is formed. Holiday head to the club for "initial up" the teacher, who is part of office otaliqqa the military and the sergeants of the reserve ofiserlar are offered.

Experience shows, educational institutions, typically, shooting, military, technical, military, historical threads, umumharbiy preparation of the study group according to the goal of the organization.

To participate in the holiday of education for all students, teachers, war veterans, part of the military and representatives of educational institutions in accordance with the purpose of involving the military.

The feast solemnly opened, and the director of education on the education of pupils on the results of military work is read after the command of "up initial " program, exercises, methods and actions is held. Awarded to the winners of the competition will be completed with the holiday of "Health" make it almost norms and requirements of the readers of the work of preparing to submit an "initial up" is carried out with the teacher and the physical education teacher. "Initial up" the teacher to personally exercise will rise up and throw shooting accuracy and qildirtiradi and receives the exercise of garanatalarni o'zoq into their standards.

Patriotism is one of the forms of military games military education for students. Niqoblab students in the process of the game to well-established methods, signalizasiya, communication tools, special acquainted with military terms, the distance to identify azimuth walks on graphic documents is to'z, compass learns from the use of the first medical aid skills.
